Meet the new profit-maker from First Alert®

by PITWAY®

Our new First Alert® Fire Safety Center educates consumers . . . creates step-up sales . . . boosts impulse sales . . . expands the market . . . and really fires up gross profits!

Featured on TV! William Conrad will be building traffic by urging viewers to look for this display in stores!

Dramatic and attention-getting! Stands 18" high, fits a 4-foot section, and is composed of six individual modules and an optional header.

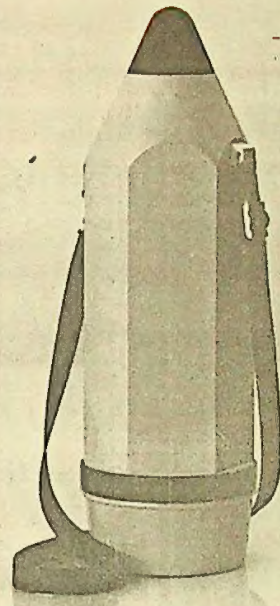

Variable product assortment! Select your plan-o-gram based on your own SKU assortment. We recommend 3 smoke detectors and 3 fire extinguishers.

Uses "Good — Better — Best" approach! Educates consumers on smoke detector step-up features. Sells higher profit items.

• **Increases overall sales!** Stimulates impulse purchases, adds step-up sales and expands the market with fire extinguishers. What we've done for smoke detectors, we'll do for fire extinguishers!

• **Increases average gross profit!** Promotes higher-end mix on smoke detectors, uses space more effectively, brings more sales per sq. ft. of space!

• **Contact your First Alert rep for details.** We'll help organize and plan-o-gram stores for those who support this program. It's a winner!

Product: Le Crayon Pencil carafe

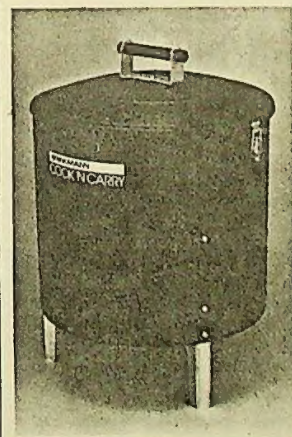

Features: Cup on base, adjustable carrying strap, .75 liter capacity.

Suggested Retail: \$9.99

Manufacturer: A. K. Das & Co. Inc., Anaheim, Cal.

accessories, like Hill Silver, which specializes in brass and silver, personalized and monogrammed. Also available are picture frames from Ken & Maur-
een's Wood And Brass Products. For an Eastern touch, look to Ni-
la's line of Chinese Chops from The Great Good Luck Trading Co.

These carved stones are used to imprint Chinese symbols or American monograms onto books or whatever! Predicted bestsellers are the Stone bookends representing the Chinese God of Literature. Most honorably literate!

Tie a golden ribbon... Gift Box Corp. of America is also having a 50th anniversary. And as part of the celebration, the firm will publish a history of the business. The tome will be authored by Phil Lassar, one of the men who made

the anniversary possible. The history will recount the people, the times, and the customers who have grown with Gift Box Corp. Many happy returns!

The plush push continues — and Teddy bears have never been so popular. Thus, Kamar's 225 Fifth Ave. showroom sports three plush versions of bears designed to appeal to special segments of the market. Jock, cowboy, and baseball uniforms adorn the bears, who measure 16 in. high and retail for \$25.

Graceful and dignified, the Barrel Decanter radiates stateliness to every bar or dining area. Coopers by master craftsmen from solid wood and brass, the glass lined decanter is as functional as it is elegant.

Projected by international designer, G. Graydon Throneberry, each piece is signed, numbered, and registered. Select from rich American black walnut or radiant cherry.

The Barrel Decanter: A present day classic destined to become a coveted heirloom.

GIFTS & DECORATIVE
ACCESSORIES

The best for the desk. Three new lines of handcrafted desk accessories are now available in the A & S Olive showroom, room 427 in 225 Fifth Ave. Image Crafter features mirror and rosewood-finish desk accessories, along with flame-shaped clocks and picture frames. City Metal's solid brass and silver-finish desk accessories are accented with a satintone stamp perfect for engraving. J. Benjamin's deluxe, hand-polished solid rosewood, oak, and burl desktop collection have matching attache cases. All three lines are made in the good ole U.S. of A.

That's Italian! Royal Crystal R. has introduced two major collections emphasizing the importance of Italian design and quality. "Lovelines" collection and "Patterns of Your Life" collection — both of lead crystal — can be seen during the year at the R. showroom in 41 Madison Ave.

A holiday tradition at Cuthberts Imports is its Original Christmas Tree pattern... in stock for years. And there are always additions. You can see it at room 40 Glazer Sales, 225 Fifth Ave.

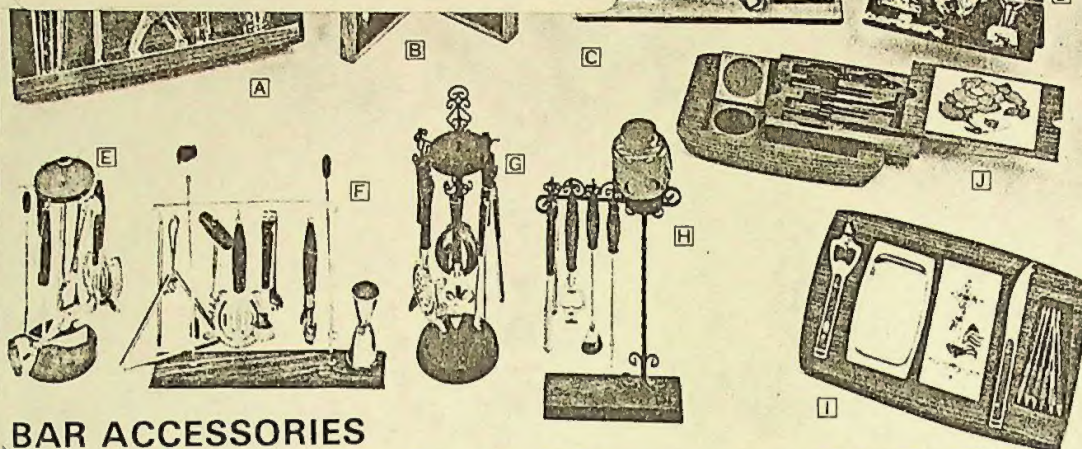

Worth more than just Peanut! Schmid has taken the license for the "Peanuts" character for musical boxes, after marketing annual "Peanuts" collector plates for many years. The ceramic musicals are 6 in. high and portray the different characters — from Charlie Brown to Lucy to Snoopy. The special Christmas editions play carols and show the "Peanuts" family in holiday attire. \$30 retail. Now available in the Schmid showroom at 225 Fifth Ave.

ROYAUME DE BELGIQUE

SERVICE DE LA PROPRIÉTÉ INDUSTRIELLE
BREVET D'INVENTION
N° 559650

demande déposée le 29 juillet 1957 à 12 h.45' ;
brevet octroyé le 14 août 1957.

SOCIETE : STEINKER & TERMÜHLEN, résidant à BOCHUM
(Allemagne).

(Mandataires : J. GEVERS & Cie).

DISPOSITIF POUR PRELEVER DU LIQUIDE D'UNE BOUTEILLE
SANS L'INCLINER.

(ayant fait l'objet d'une demande de modèle d'utilité déposée en Allemagne
(République Fédérale) le 8 juin 1957 - déclaration de la déposante).

L'invention concerne un dispositif permettant de prélever du liquide d'une bouteille sans l'incliner, dans lequel, en appuyant sur un corps creux élastique monté sur un bouchon perforé obturant le goulot de la bouteille, on envoie de l'air comprimé sur le liquide qui y est contenu, de façon à le faire s'écouler par un tuyau de refoulement pourvu d'un bec verseur.

Les dispositifs de ce genre conformes à l'invention, sont caractérisés par le fait que le corps creux élastique a la forme d'une figurine. Cette réalisation nouvelle rend l'emploi du dispositif particulièrement attrayant, et l'aversion que ressentent de nombreux usagers pour l'emploi de dispositifs techniques dans la consommation des aliments est ainsi surmontée.

On choisit de préférence pour la figurine constituant le corps creux élastique, une forme humoristique. Elle peut être constituée par une silhouette ou une tête humaine; des corps ou des têtes d'animaux peuvent également convenir.

Dans une forme de réalisation particulièrement avantageuse de l'objet de l'invention, le corps creux élastique, la pièce intermédiaire et le bouchon obturant la bouteille d'une part, le tube de refoulement et le bec verseur d'autre part, sont constitués d'une seule pièce, chacune en un même matériau.

A titre d'exemple, on a représenté schématiquement au dessin annexé plusieurs formes de réalisation du dispositif conforme à l'invention.

La figure 1 montre une figurine humaine, ayant la forme d'un monument Bruxellois connu.

La figure 2 montre une tête humaine.

La figure 3 montre un chien et la figure 4 un oiseau.

Pour les utiliser, on comprime le corps élastique constituant la figurine, de façon à produire ainsi la pression nécessaire pour élever le liquide.

- REVENDICATIONS -

Ayant ainsi décrit notre invention et nous réservant d'y apporter tous perfectionnements ou modifications qui nous paraîtraient nécessaires, nous revendiquons comme notre propriété exclusive et privative :

1 - Dispositif pour prélever du liquide d'une bouteille sans l'incliner, en appuyant sur un corps creux élastique, caractérisé en ce que le corps creux élastique a la forme d'une figurine.

2 - Dispositif suivant 1, caractérisé en ce que le corps creux élastique a la forme d'une tête ou d'un corps humain.

3 - Dispositif suivant 1, caractérisé en ce que le corps creux élastique a la forme d'une tête ou d'un corps d'animal.

4 - Dispositif suivant 1, 2 ou 3, caractérisé en ce que le corps creux élastique, la pièce intermédiaire et le bouchon obturant la bouteille d'une part, le tube de refoulement et le bec verseur d'autre part, sont constitués, de façon connue, d'une seule pièce, chacune en un même matériau.
